

Software Engineer - fresh graduate

We are looking for Fresh graduated candidates with finishing the University in academic year 2025/2026

Starting day June 1st, 2026 onward!

We are looking for a highly motivated Software Engineer to join our dynamic team in Brno. As a key member of our development team, you will design, develop, and deploy software solutions using **Python, MySQL, Oracle Cloud, and JavaScript**.

You will work on building robust applications that drive our core business functions, collaborating closely with cross-functional teams to deliver high-quality, scalable solutions

If you are passionate about software development and enjoy solving complex technical challenges, we'd love to hear from you

Requirement:

- English proficiency at B2 level or higher
- At least 1 year of experience with Python from University or any University project
- Solid knowledge of SQ
- Knowledge of JavaScript is an advantage
- Understanding of web application architecture is essential

More info and application [here](#).
