Install JSR

JSR is available in browser add-on stores For Firefox, Opera and Chrome:

- **Firefox:** <https://addons.mozilla.org/en-US/firefox/addon/javascript-restrictor/>
- **Opera:** <https://addons.opera.com/en/extensions/details/javascript-restrictor/>
- **Chrome, other Chromium-based:** <https://chrome.google.com/webstore/detail/javascript-restrictor/ammoloihpcbognfddfjcljgembpibcmb>

How to install JavaScript Restrictor from source?

1. Go to the project repository <https://github.com/polcak/jsrestrictor>
2. Download the desired branch, e.g. as zip
3. Unpack the zip file
4. Run make
 - We currently support GNU/Linux and Apple Mac OS, we plan to Support Windows
 - You will need common software, such as wget, bash, awk, sed
5. Import the extension to the browser
 - Firefox: <https://extensionworkshop.com/documentation/develop/temporary-installation-in-firefox/>
 - Use the file `firefox_JSR.zip` created by make
 - Chromium-based browsers:
 1. Open `chrome://extensions`
 2. Enable developer mode
 3. Click Load unpacked
 4. Import the `chrome_JSR/` directory created by make
